RE: Letter of Recommendation for Acousti Engineering Company of Florida

Dear Jim,

I would like to take this opportunity to congratulate Acousti Engineering Company of Florida and the Project Manager team of assigned to the Elementary School "Z" – Heron Heights Elementary of Mr. Jim Reardon and Chris Eno. It was a pleasure to work with Acousti Engineering Company of Florida and the entire team assigned to our project.

The experience that we had with Acousti Engineering Company of Florida was outstanding and they strongly validated their excellent reputation as one of the premier Drywall Framing/Drywall/Stucco/Flooring contractors in the southeast. We found this firm to be extremely knowledgeable with all aspects of the Division 8 and 9 of the construction industry. They were excellent in their communications, strongly adhered to standards of quality and their safety program was impeccable. They are indeed craftsmen who deliver a beautiful, quality product that met or exceeded the specifications, our expectation and schedule.

It gives me great pleasure to provide Acousti Engineering Company of Florida this letter of recommendation and it would be a pleasure to have them be part of any of our projects in the future.

Sincerely,

Jose Capellan Jr. LEED® AP
Project Manager
